Data Quality Report Template

The Data Quality Report Template will summarize data quality issues from the selected source, including severity levels and resolution plans. It will aid in systematically identifying and rectifying data discrepancies.

Data Source	Data Quality Issue	Severity	Resolution Plan
Food Ordering Behavior Dataset	Inconsistent Text Formatting: Double spacing, irregular uppercase/lowercase strings, and trailing whitespace in categorical fields such as City, Cuisine, and Meal Type.	Moderate	Apply structural string operations to trim whitespace, clean out double spaces, and normalize case styles to ensure identical values (e.g., city and cuisine names) group together properly in Tableau.
